

CONGRATULATIONS

CASEY PARKER

The answer to the last question was:

The following is a list of symptoms for _____.

Affects skin and tissue: pale, waxy-white skin color, skin becomes hard and numb; usually affects fingers, hands, toes, feet, ears and nose

A) Heat Stroke

C) First Degree Burn

B) Frost Bite

D) An Allergic reaction

REMEMBER: In order for a drawing to occur 10 individuals must participate by sending Heidi their answer. The question will not change until we have 10 participants and draw a winner. Each individual may only answer once.

SAFETY QUIZ:

When choosing a ladder that will support the correct amount of weight which of the following is the correct formula you should use?

- 1) Maximum Employee Height + Tools/Equipment/Supplies = Maximum intended load
- 2) Maximum Employee Health + Tools/Equipment/Supplies = Maximum Intended load
- 3) Maximum Employee Weight + Tools/Environment/Supplies = Maximum intended load
- 4) Maximum Employee Weight + Tools/Equipment Supplies = Maximum intended load
